- **Scissors** cuts Paper.
- **Paper** covers Rock.

When played against a casino or online platform, operators present a home edge through platform fees (called "rake") or somewhat unfavorable payout chances.

Platform Type System Approximate House Edge/ Fee **P2P Crypto Sites** Gamers bet versus each other; platform takes a cut of the pot. 1%-- 3% (Rake) **Casino RNG Games** Player bets a programmed computer system algorithm. 2%-- 5% **Live Dealer/ Game Shows** Streamed live with human hosts or automated mechanical arms. 3%-- 6%
