For teachers, a metronome is a shared reference point.

Set homework tempos

Give students a specific BPM for each exercise so home practice is focused.

Share settings

Online metronomes can share a link with the metronome tempo and time signature, so students get the exact setup.

Add one to your site

Some free ***metronome*** metronomes can be embedded on a lesson page, keeping practice in one place.

Games

Use silent-bar challenges to keep students engaged.
