At its core, the video game is easy: players place wagers on where they think the wheel will stop. Nevertheless, what sets Crazy Time apart from basic cash wheel video games is the addition of a **Top Slot** system on every spin and four interactive bonus games that can lead to massive multipliers.

The Magic of the Top Slot

Above the main money wheel sits the **Top Slot**, a tiny two-reel fruit machine that spins simultaneously with the wheel.

1. **Reel 1** display screens one of the betting alternatives (a number or a bonus offer video game).
2. **Reel 2** display screens a random multiplier (varying from 2x approximately 50x).

If the horizontal line in the Top Slot aligns a bet with a multiplier, that multiplier uses to that particular outcome for the upcoming spin. If the primary wheel lands on that result, any wins for that round are boosted by the multiplier. If a bonus offer round is triggered with a Top Slot multiplier connected, the starting multipliers inside the perk game are quickly multiplied by that figure.

Diving Into the Four Bonus Rounds

The real heart of Crazy Time lies in its four reward video games. Setting off among these rounds transfers players from the main studio into a distinct augmented truth mini-game.

1. Coin Flip

The most basic of the reward rounds. A coin with a red side and a blue side is turned by a mechanical arm.

- Before the flip, random multipliers are assigned to both the red and blue sides.
- Whichever side lands face up wins the multiplier for the participating players.
- If the multipliers are low, a "Rescue Flip" can in some cases be triggered, providing players another chance at higher benefits.

2. Cash Hunt

This benefit game features a huge screen displaying 108 random multipliers hidden behind shooting gallery symbols (like a cactus, a target, or a duck).

- Players use an on-screen crosshair to intend and shoot at one sign before the timer runs out.
- Once time ends, all signs reveal their concealed multipliers, and the player gets the multiplier behind their selected target. Every player gets to pick their own spot, meaning various players can win various amounts.

3. Pachinko

Motivated by the standard Japanese arcade video game, Pachinko ***Crazy Time Free Play*** features a radiant, vertical board filled with physical pegs.

- The host drops a puck from the top of the board.
- The puck bounces arbitrarily down through the pegs up until it lands in among the multiplier zones at the bottom.
- If the puck lands on a **"Double"** value, all multipliers at the bottom of the board double, and the puck is dropped again, resulting in potentially massive payments.

4. Crazy Time

The supreme reward round takes gamers behind a red door into a surreal, whimsical virtual world including a huge, 64-segment wheel.

- Gamers need to pick one of 3 flappers: **Green, Blue, or Yellow**.
- The host spins the huge wheel.
- Whichever sector the selected flapper points to when the wheel stops is the reward granted.
- The wheel consists of **"Double"** and **"Triple"** sections. If a flapper lands on among these, all multipliers on the wheel double or triple, and the wheel is spun again. This is where the game's legendary 20,000 x max multiplier can be accomplished.

Strategies and Tips for Playing Crazy Time

While Crazy Time is basically a video game of opportunity identified by a random number generator (RNG) and physical physics, gamers often utilize certain methods to manage their bankroll and tailor their experience.

Popular Playing Approaches

- **The Low-Risk Strategy (Grinding Numbers):**
  - Focus heavily on banking on **1** and **2**.
  - These numbers inhabit the bulk of the wheel, implying they struck regularly.
  - This strategy won't yield overnight fortunes, however it extends playtime and keeps the bankroll reasonably stable.
- **The Bonus Hunter Strategy:**

  - Place little bets specifically on the four bonus offer rounds (**Cash Hunt, Pachinko, Coin Flip, Crazy Time**).
  - Since bonus rounds appear on only 9 out of the 54 sectors, this approach requires persistence and a durable bankroll, as droughts can take place. However, it positions the player to catch the most significant payments when the benefits hit.
- **The Balanced Approach:**
  - Cover a mix of numbers and benefit rounds. For example, placing little bets on numbers to keep your balance while betting on particular bonus games to keep the excitement alive.

Best Practices for Bankroll Management

- **Set a Budget:** Decide just how much you are ready to invest before you begin playing, and never chase losses.
- **Understand the RTP:** Keep in mind that number bets generally offer a higher RTP than bonus bets, but perk bets use substantially higher volatility and maximum win capacity.
- **Take pleasure in the Entertainment:** Crazy Time is a live entertainment program initially and foremost. Deal with any wagers as the cost of admission for an interactive show.
