1. Coin Flip

A basic red and blue coin is turned by a device. Before the flip, multipliers are randomly assigned to both sides of the coin. Whichever color lands face up wins the assigned multiplier for the player.

2. Cash Hunt

This is a shooting gallery-style perk game. An enormous screen shows 105 random multipliers hidden behind numerous symbols (like a cactus, target, or chef's hat). Players use a virtual crosshair to select a symbol, revealing their multiplier.

3. Pachinko

Influenced by the standard Japanese arcade video game, a puck is dropped from the top of a massive Pachinko wall filled with pegs. The puck bounces down and lands at the bottom in a slot including a multiplier (or a "Double" slot, which doubles all multipliers on the board and sets off another drop).

4. Crazy Time

This is the ultimate perk round. The host opens a red door leading to a virtual world behind the wall featuring a massive 64-segment wheel. Players choose one of 3 flappers (Green, Blue, or Yellow). The wheel spins, and whatever multiplier the chosen flapper points to is granted. If it arrive at "Double" or "Triple," all multipliers on the wheel boost, and the wheel spins again.

Tips for Maximizing the Crazy Time Demo Experience

To get the most out of observing or practicing with a Crazy Time demo, think about the following best practices:

- **Watch for a minimum of 30-- 50 spins:** Variance is high in live game shows. Observing multiple rounds offers a sensible view of how typically perk rounds really set off compared to number sectors.

- **Develop a Budget Strategy:** Even in demo mode, practice setting virtual limits. Deal with the demo bankroll as real money to develop good discipline.
- **Discover the Payouts:** Memorize the odds for the number segments versus the rarity of the reward rounds to build a well balanced betting strategy.
