Demystifying Crazy Time: The Ultimate Guide to Evolution Gaming's Phenomenal Game Show

In the ever-evolving landscape of online gaming, few titles have recorded the creativity of gamers quite like **Crazy Time**. Established by Evolution Gaming and introduced in 2020, this game show-style live casino title has actually redefined what gamers anticipate from interactive entertainment. Blending the mechanics of a standard cash wheel with innovative enhanced truth, high-multiplier slots, and 4 distinct bonus offer rounds, Crazy Time is a sensory-rich phenomenon.

This extensive guide explores the mechanics, methods, and distinct features that make Crazy Time a staple of contemporary online casinos.

What is Crazy Time?

At its core, Crazy Time is a live dealer video game reveal hosted in a dynamic, brilliantly colored studio. The centerpiece of the video game is a huge, vertically installed 54-segment wheel run by a live speaker. Players position bets on where they think the wheel will stop after a spin.

However, what sets Crazy Time *Crazy Time host* apart from standard money wheel video games is the **Top Slot**--a two-reel mini-slot positioned above the main wheel. With every spin of the main wheel, the Top Slot spins simultaneously, generating a random multiplier for a particular bet segment. If the wheel arrive at that sector and the multiplier applies, possible payouts can escalate.

Comprehending the Wheel Segments and Odds

The 54 sections on the Crazy Time wheel are divided into numeric bets (1, 2, 5, and 10) and four bonus round bets. Each sector uses different payment potentials and probabilities.

Wheel Segment Variety of Segments Payment Approximate Probability **1** 21 1:1 38.89% **2** 13 2:1 24.07% **5** 7 5:1 12.96% **10** 4 10:1 7.41% **Cash Hunt** 2 Perk Game 3.70% **Pachinko** 2 Benefit Game 3.70% **Coin Flip** 4 Perk Game 7.41% **Crazy Time** 1 Benefit Game 1.85%

As displayed in the table, the numeric bets appear more frequently, offering smaller sized, more consistent wins. Alternatively, the reward rounds are rarer but hold the key to the video game's huge maximum payment capacity.

The Four Immersive Bonus Rounds

The primary attraction of Crazy Time is its 4 reward video games. Triggering one of these rounds transports players from the primary studio into a secondary increased reality or physical set, total with special gameplay mechanics.

1. Coin Flip

- **Frequency:** 4 sections on the wheel
- **Gameplay:** A basic coin with a red side and a blue side is flipped by a device. Before the flip, multipliers are randomly appointed to both sides of the coin. Whichever color lands face up identifies the winning multiplier for that round.

2. Pachinko

- **Frequency:** 2 sectors on the wheel
- **Gameplay:** Inspired by the conventional Japanese arcade game, players are required to a large Pachinko wall filled with pegs. The live host drops a puck from the top, and it bounces down randomly until it lands in one of the slots at the bottom, each consisting of a multiplier. If the puck lands on a "Double," all multipliers on the board double, and the puck is dropped again.

3. Money Hunt

- **Frequency:** 2 sectors on the wheel
- **Gameplay:** This is a shooting gallery-style interactive reward round. A screen shows 108 random multipliers hidden behind different signs (such as a cactus, a target, or a constable's hat). Gamers use a crosshair to pick one sign before the timer goes out. Once time expires, all symbols expose their surprise multipliers, and the player wins whatever multiplier they targeted at.

4. Crazy Time

- **Frequency:** 1 section on the wheel
- **Gameplay:** The ultimate bonus offer round takes players behind a red door into a surreal, huge virtual world including an even bigger perk wheel. Players need to select among 3 flappers (Green, Blue, or Yellow). The host spins the wheel, and the gamer wins the multiplier where their chosen flapper stops. Much like Pachinko, landing on "Double" or "Triple" increases all multipliers on the wheel for a re-spin, permitting multipliers to reach up to the video game's cap of **20,000 x**.
