What is a Live Casino?

A live casino is an online video gaming platform that streams real-time table games from professional studios or real land-based gambling establishments. Unlike basic digital casino video games powered by Random Number Generators (RNGs)-- where results are identified simply by computer system algorithms-- live gambling establishments include human croupiers dealing genuine cards, spinning physical live roulette wheels, and communicating with players through live chat.

The setup uses high-definition (HD) cameras, several streaming angles, and Optical Character Recognition (OCR) innovation. OCR equates physical information from the game (like a dealt card or a live roulette number) into digital data, permitting players to place bets [Online Casino Games](#) perfectly through their smartphones or computer systems while viewing the action unfold live.
