

TRICARE Insurance Drug Rehabs San Diego Military HGR California San Diego's large military community, centered on the Naval installations in the Coronado and Point Loma areas and Camp Pendleton to the north, represents a significant population of active duty service **private drug rehabs San Diego** members, veterans, and military families who may need addiction treatment services. HGR Drug Rehabs San Diego California accepts TRICARE insurance, making the program accessible to military-connected individuals and families who are dealing with substance use challenges. Military-connected addiction treatment requires specific clinical sensitivity. Service-connected trauma, PTSD, the culture of stoicism around seeking help, and the specific stressors of military life and transition all affect how addiction presents and how treatment should be approached. The dual diagnosis programming at HGR, including EMDR therapy for trauma and integrated mental health treatment, is clinically appropriate for the pattern of co-occurring conditions common in the military population. The clinical team at HGR provides treatment to active duty personnel, veterans, and military family members with the same standards of care and personal attention that all clients receive. The admissions team can verify TRICARE coverage and guide military-connected individuals and families through the process of accessing treatment.
