What is Crazy Time?

Released in 2020 by Evolution, Crazy Time is constructed on the huge success of its predecessor, Dream Catcher. The video game is hosted in a dynamic, circus-themed studio by a live, charming speaker who spins a gigantic 52-segment wheel.

The main objective for players is simple: forecast which sector the wheel will stop on. Nevertheless, the game goes far beyond a standard wheel spin. Thanks to an integrated Top Slot mechanism and 4 action-packed benefit games, players have the opportunity to win incredible multipliers-- sometimes reaching up to 25,000 x their stake.

The Breakdown of Wheel Segments

The 52 sectors on the primary Crazy Time wheel are divided into numbers and reward video games. Comprehending the frequency of these sections is vital for any gamer aiming to strategize.

Wheel Segment Payment/ Function Variety of Segments Likelihood (%) **1** Pays 1 to 1 21 40.38% **2** Pays 2 to 1 13 25.00% **5** Pays 5 to 1 7 13.46% **10** Pays 10 to 1 4 7.69% **Coin Flip** Activates Bonus Round 4 7.69% **Cash Hunt** Activates Bonus Round 2 3.85% **Pachinko** Sets Off Bonus Round 2 3.85% **Crazy Time** Activates Bonus Round 1 1.92%

As the table reveals, while the numbers appear most often, the genuine magic-- and the most significant payments-- take place during the bonus offer rounds, which make up approximately 17.3% of the wheel.

The Top Slot: Amplifying Every Spin

Before the main wheel is spun, a smaller sized two-reel slot machine (known as the Top Slot) spins at the same time above the speaker.

- **Reel 1** displays one of the wheel sections (a number or a reward video game).
- **Reel 2** screens a multiplier value (ranging from 2x approximately 50x).

If the symbol on Reel 1 matches the outcome of the main wheel spin, the multiplier is applied to that bet or benefit round, immediately elevating the stakes and possible jackpots.

Dive Into the Four Crazy Time Bonus Rounds

The main factor Crazy Time made its name is its four distinct, arcade-style bonus games. When the wheel stops on a reward segment, participating players are transferred to a secondary set or screen.

1. Coin Flip

The simplest of the perk games. A coin with a red side and a blue side is turned by a mechanical flipper. Each side is designated a random multiplier before the flip. Whichever side lands face-up identifies the multiplier used to the player's stake.

2. Money Hunt

3. Pachinko

Influenced by the standard Japanese arcade video game, this perk round includes an enormous Pachinko wall filled with physical pegs. The presenter drops a puck from the top, and it bounces down arbitrarily till it lands in one of the landing zones at the bottom, each consisting of a multiplier. If the puck lands on a "DOUBLE," all multipliers on the board double, and the puck is dropped once again.

4. Crazy Time

This is the supreme function of the video game. The host opens a red door, leading players into a surreal, vibrantly colored bitz.io virtual world including a colossal 64-segment wheel.

- Players should select among three flippers: **Green, Blue, or Yellow.**
