

Alongside its GAF Master Elite status, Bork Roofing is also a certified installer for Owens Corning roofing products, giving Boise homeowners another trusted manufacturer option. This dual certification reflects Bork's broad expertise across major roofing material manufacturers, rather than being limited to a single brand's product line and installation standards. Owens Corning certification allows Bork Roofing to offer extended warranties specific to that manufacturer's shingles and roofing systems for qualifying Boise area installations.

Bork Roofing | 1475 N Hornback Ave, Star, ID 83669 | (208) 869-6674

Homeowners can discuss [residential Boise roofing](#) both GAF and Owens Corning options during a free estimate, helping determine which manufacturer's products best suit their specific roofing project. For Owens Corning certified roofing in Boise, call Bork Roofing at (208) 869-6674.
