

Teeth whitening at Whites Dental Marble Arch is available through Philips Zoom, offered both as an in clinic treatment and as a take home option for patients who prefer to whiten at their own pace. In clinic Zoom whitening typically delivers faster, more dramatic results in a single visit, while the take home kits allow patients to gradually whiten over a period of [emergency dental care](#) time using custom trays. The practice's dentists assess suitability for whitening treatment during a consultation, checking for any underlying dental issues that should be addressed before proceeding with a cosmetic whitening treatment.
