If a player squanders effectively, they win their original bet multiplied by the existing coefficient. If the aircraft flies away-- in your area described as the airplane "crashing"-- before the player cashes out, the bet is lost.

Key Characteristics of Aviator:

2. **Speed and Instant Gratification:** Unlike football betting, where a punter might wait 90 minutes (or days) for a match to conclude, an Aviator round lasts anywhere from a few seconds to half a minute.
3. **Low Barrier to Entry:** Players can place bets with quantities as low as 10 KES, making the game accessible to casual gamers on a budget.

4. **Control Over the Game:** Unlike traditional slots where the gamer merely hits "spin" and hopes for the very best, Aviator enables gamers to actively choose when to protect their earnings.
