Unlike traditional casino games where results are determined by spinning reels or dealing cards, Aviator revolves around an intensifying multiplier represented by a rising aircraft.

The principle is simple:

1. **Place a bet** (or 2 bets simultaneously) before the round starts.
2. **Watch the airplane remove**, accompanied by a multiplier that starts at 1.00 x and increases rapidly.
3. **Squander** before the plane flies away (crashes).
4. If a player squanders effectively, they win their stake multiplied by the present value. If the aircraft flies away before they squander, the bet is lost.

The unpredictability of when the airplane will fly away-- ranging from 1.00 x to theoretically infinity-- produces a high-stakes environment driven by timing and nerve.

- **The Dual-Bet Strategy:** Place one large bet with an auto-cashout set low (e.g., 1.50 x) to secure a safe return, and a second smaller sized bet intended at a high multiplier for a chance at a huge payout.

Accountable Gambling in Kenya

The excitement of viewing a multiplier climb can in some cases result in spontaneous behavior. It is vital to keep in mind that online betting ought to be deemed a kind of entertainment, not a trusted source of income.
