- **The Center:** There are lots of various pathways for the ball to end up in the middle slots. Consequently, the ball lands in the center the huge bulk of the time. This is why the center slots normally include payouts listed below 1x (e.g., 0.2 x, 0.5 x, or 0.9 x).
- **The Edges:** There are very couple of specific paths that lead a ball all the way to the far-left or reactionary corners. Because these outcomes are statistically uncommon, online casinos attach huge multipliers (like 500x, 1,000 x, or even 10,000 x) to those external slots.
