What is Crazy Time?

Introduced in 2020, Crazy Time is built on the enormous success of earlier live wheel games like *Dream Catcher* and *Monopoly Live*. Embed in a dynamic, Willy Wonka-esque studio, a charismatic live host spins a massive, vertical 52-segment wheel.

The core goal is easy: players put bets on the segment of the wheel they believe the flapper will arrive on. However, what sets Crazy Time apart from standard wheel video games is the **Bitz** addition of a leading slot above the primary wheel and four unique, highly immersive reward video games.

The Anatomy of the Wheel

The 52 segments on the Crazy Time wheel are divided into numbers and benefit round triggers. Comprehending the design is the initial step for any gamer looking to dive into the action.

The Four Bonus Rounds: Where the Magic Happens

While banking on numbers provides steady gameplay, the genuine excitement-- and the game's huge payout capacity-- lies within the 4 unique bonus offer rounds. If the wheel stops on a benefit sector, players who put a bet on that particular sector get to take part.

1. Coin Flip

The simplest of the reward rounds, the Coin Flip takes location on a physical digital screen. A coin with a red side and a blue side is turned by a robotic arm.

- Before the flip, random multipliers are assigned to both the red and blue sides.

- Whichever side lands face up wins the multiplier for the participating players.
- If the multipliers are low, a "Rescue Flip" can often be activated, offering players a 2nd opportunity at higher rewards.

2. Cash Hunt

Enter a virtual shooting gallery including a huge screen filled with 108 random multipliers.

- These multipliers are hidden behind various symbols (like a cactus, a target, or a sheriff's badge).
- Gamers are given a limited time to goal and fire a cannon at their picked sign.
- Once time ends, the concealed multiplier behind the picked symbol is revealed and applied to the gamer's stake.

3. Pachinko

Influenced by the traditional Japanese arcade game, the Pachinko perk round includes a large vertical wall filled with physical pegs.

- The host drops a puck from the top of the board.
- As the puck bounces down through the maze of pegs, it ultimately lands in among the landing zones at the bottom.
- Each zone includes a multiplier. If the puck arrive on a "DOUBLE" zone, all multipliers on the board double, and the puck is dropped once again for even bigger wins.

4. Crazy Time

The crown gem of the video game is the Crazy Time benefit round. The host opens a red door, leading players into a surreal, vibrantly colored virtual world behind the wall.

- Gamers are faced with a gigantic virtual wheel including 3 flappers (Green, Blue, and Yellow).
- Players choose their favored flapper before the wheel is spun.
- The wheel includes huge multipliers, "DOUBLE," and "TRIPLE" segments. If a flapper points to a double or triple worth, all the multipliers on the wheel boost, and the wheel spins once again up to a maximum cap of 20,000 x.

The Top Slot Feature

Including an extra layer of anticipation to every single spin is the **Top Slot**. Located straight above the primary video game wheel, this small two-reel slot spins concurrently with every wheel rotation.

- The left reel selects a random bet spot (a number or a bonus video game).
- The best reel picks a random multiplier.
- If the Top Slot effectively matches the winning segment on the primary wheel, the multiplier is applied to that spin or triggers a magnified perk round. This system is what enables gamers to secure payments of as much as 500,000 x their original bet.
