- **The Dual-Bet Strategy:**

- *How it works:* Players place 2 bets all at once. The very first bet is set to auto-cash out at a moderate multiplier (e.g., 2.00 x) to secure an earnings or break even. The second bet is left to run by hand for a greater, riskier multiplier (e.g., 10x or higher).
- *Objective:* Balancing security with the thrill of chasing a massive payout.

- **The Martingale System (Use with Caution):**

- *How it works:* Doubling the bet after every loss, with the intent of recuperating all previous losses plus a revenue when a win finally takes place.
- *Objective:* Mathematically recovering losses, though this requires an extremely large bankroll and can quickly strike table limits.
