What should I look for in a local plumber?

Look for experience, licensing, good reviews, clear pricing, fast response times, and the ability to handle both regular plumbing repairs and emergency plumbing needs.

When should I call an emergency plumber?

Call an emergency plumber for burst pipes, major leaks, sewage backups, overflowing toilets, no working water, or drain clogs causing water to back up into the home.

What does a drain cleaning service do?

A drain cleaning service removes clogs and buildup from sinks, tubs, showers, toilets, kitchen drains, laundry drains, and main sewer lines.

What causes clogged drains?

Clogged drains are often caused by grease, hair, soap buildup, food scraps, wipes, tree roots, mineral buildup, or objects stuck inside the pipe.

How do plumbers clear clogged drains?

Plumbers may use drain snakes, augers, trap cleaning, camera inspections, or hydro jetting depending on the clog location and severity.

How do I know if I need drain cleaning?

You may need drain cleaning if water drains slowly, drains smell bad, toilets gurgle, or water backs up into sinks, tubs, showers, or floor drains.

Are chemical drain cleaners safe?

Chemical drain cleaners can damage pipes and create safety risks. For serious or recurring clogs, professional clogged drain cleaning is usually the safer option.
